Architecture Design & Construction permit

Results-driven Design Manager with extensive experience overseeing the full architectural lifecycle, from conceptual vision to construction-ready documentation. Expert in coordinating multidisciplinary teams (Architectural, Structural, MEP, Interior, Landscape) and navigating complex Indonesian regulatory landscapes to secure necessary permits and approvals.

- **Design Management:** Conceptual Phase Planning, Brief Development, & 3D Visualization Oversight.
- **Technical Coordination:** Architectural plans, MEP & Structural Engineering Integration.
- **Regulatory Compliance:** Indonesian Construction permit (PBG, SLF, UKL-UPL) & Government Relations.
- **Stakeholder Relations:** Investor Feedback Integration, Consultant Engagement, & Workshop Facilitation.
